

IQNet in ISO CASCO Meeting Mexico

23 April 2018. IQNet Association is actively participating in the ISO CASCO meetings starting today, April 23 in Mexico City.

ISO CASCO is a committee formed within the International Organization for Standardization (ISO) with the mandate to develop standards and address issues related to conformity assessment.

IQNet is represented by its Liaison and Managing Director, Pedro Alves.

Having obtained the A-Liaison status since 2001, IQNet has been making effective contributions to the works of the technical committee and subcommittees under the ISO CASCO.

As an A-Liaison, IQNet went out its way to seize the opportunity to be strategically present in some of ISO CASCO works: such as the Plenary; Chairman's Policy and Coordination Group (CPC), that coordinates the technical work of CASCO and assists the CASCO Chair in identifying strategic conformity assessment issues; and Strategic Alliance and Regulatory Group (STAR) which provides a forum for industry sectors and regulators to interact with CASCO.

IQNet is also a part of the WG42 and WG49 under the committee. To know more about IQNet's involvement in ISO committees, please click [here](#).

About IQNet

IQNet - The International Certification Network has been active since 1990, with 35 Partner certification bodies and with more than 200 subsidiaries worldwide. Each of these IQNet Partners is a leader in their region, and collectively through IQNet, represents the most extensive and reputable network of certification bodies worldwide.

IQNet headquarters are based in Bern, Switzerland. IQNet supports the work of international organisations by its membership and involvement in EA, ISO, ISO/CASCO, IAAC, and IAF, to name a few.
